To Whom It May Concern:

I am 14 years old and an animal rights activist. This letter is concerning irradiation. Any product that is irradiated or contains an irradiated ingredient, to be conspicuously labeled either with the word "radiation" or "irradiated" and with the radura logo (the international symbol for irradiation). Anything less would be inaccurate, misleading, and irresponsible. Also, this requirement should not expire at any time.

The irradiation of meat will reduce the pressure on agribusiness to provide better treatment and living conditions to farmed animals. Irradiation extends the shelf-life of meat and poultry, which will lead to increased exports.

I have also informed others. I hope to hear from someone soon. Thank-you.

For the Animals:

Lisa Dickal

PEOPLE FOR THE ETHICAL TREATMENT OF ANIMALS
501 Front St., Norfolk, VA 23510 • 757-622-PETA • www.pginfo.net

Every year, Procter & Gamble poisons and kills thousands of animals to test its products even though no law requires such tests and more than 550 other companies test their products without using animals. Please boycott all P&G products. Write to PETA for a list of companies that don't test on animals.

(Please fold here to fit in your wallet.)

Procter & Gamble Poisons Animals!

Take this card with you when you shop to avoid products cruelly tested on animals and to choose humane, cruelty-free alternatives.
